<b>Description</b>			
In Pulp 3.0:			
In gofer 2.0, the URL syntax supports messaging adapter specification. This is used instead of the <i>transport</i> property which was deprecated and no longer supported. The transport property should be removed from the [messaging] section in server.conf.			
URL syntax examples:			
<ul style="list-style-type: none"><li>• qpid+amqp://test.redhat.com</li><li>• rabbitmq+amqps://test.redhat.com</li></ul>			
Deliverables:			
<ul style="list-style-type: none"><li>• Pulp changed to support the URL syntax instead of using the transport property.</li><li>• Change stock server.conf to the URL syntax instead of using the transport property and default values.</li><li>• Update documentation</li><li>• Add to release notes.</li><li>• (internal) agent/direct.Services.get_url() should be removed.</li></ul>
