

## Pulp - Task #112

### Add a test to ensure pulp's setup.py versions are the same as the RPM versions

01/19/2015 05:20 PM - cduryee

<b>Status:</b>	CLOSED - WONTFIX	<b>Start date:</b>

<b>Sprint Candidate:</b>	No		
<b>Description</b>			
<p>Pulp is versioned in two places: the spec file, and in various setup.py files. These can get out of sync since tag.sh will not update all of the setup.py files.</p> <p>We should have an automated test to ensure the versions specified in the setup.py files match what's in the spec file.</p> <p>This will be needed for plugins as well as for platform.</p>			

#### History

##### #1 - 01/19/2015 07:28 PM - rbarlow

We don't necessarily have to make this a unit test. It could just be another thing that run-tests.py does. We may be able to make the pulp.devel package have to code to perform this test and have each run-tests.py use it.
