

Pulp - Task #1281

Story # 1150 (CLOSED - NOTABUG): As a user, I can lazily fetch repositories

Update the Importer base class to support the streamer getting a configured downloader.

09/28/2015 05:32 PM - jortel@redhat.com

Status:	CLOSED - CURRENTRELEASE	Start date:	
Priority:	Normal	Due date:	
Assignee:	jortel@redhat.com	% Done:	100%
Category:		Estimated time:	0:00 hour
Sprint/Milestone:		Tags:	Pulp 2
Platform Release:	2.8.0	Sprint:	
Groomed:	No	Quarter:	
Sprint Candidate:	No		
Description			
Add something like:			
<pre>Importer.get_downloader(self, config, catalog_entry).</pre>			
This method is called by the streamer to acquire a fully configured downloader as needed. This method <i>could</i> have a default implementation that creates a downloader using the standard importer config. This implementation could provide a sufficient implementation for most importers participating in lazy downloading.
