| Groomed: | Yes | | |
| Sprint Candidate: | Yes | | |
| Description | | | |
| Add the ability for users to set the feed url to another Pulp/Crane server that is serving the v2 API. | | | |

Associated revisions

Revision a11e0b15 - 10/22/2015 09:39 PM - rbarlow

Add the ability for users to be able to sync from other Pulp servers.

This commit adds code that can calculate the digest of a raw JSON manifest. This allows users to sync from feed URLs that do not provide the digest header, and it also allows Pulp to verify the digest of manifests downloaded from feed URLs that do provide the header.
