Associated revisions

Revision cc6aeed2 - 12/01/2015 11:00 PM - Jeremy Cline

The lazy catalog is purged during an orphan purge.

This change appears in both the mongoengine version and the non-mongoengine version of the "delete orphan by type" method because although lazy is only supported by mongoengine types, the delete_orphan_by_id method works with mongoengine types and calls the non-mongoengine version of "delete orphan by type".

It also updates the mongoengine version of "delete by type" to match the signature of the non-mongoengine version.

closes #1339

Revision cc6aeed2 - 12/01/2015 11:00 PM - Jeremy Cline

The lazy catalog is purged during an orphan purge.

This change appears in both the mongoengine version and the non-mongoengine version of the "delete orphan by type" method because although lazy is only supported by mongoengine types, the delete_orphan_by_id method works with mongoengine types and calls the non-mongoengine version of "delete orphan by type".

It also updates the mongoengine version of "delete by type" to match the signature of the non-mongoengine version.
