

## RPM Support - Issue #1366

### Advisory package list doesn't match packages in the repository

11/11/2015 12:35 PM - jluza

<b>Description</b>			
We have following situation, which is quite common in our releasing process:  Async errata contains multiple products and set of all packages for these products. Advisory is pushed into repositories related to the products and selected subset of packages from advisory is uploaded to the repository. However after yum publish, generated updateinfo contains advisory with all packages even with those that are not in the repository. Therefore we need filter out packages of advisory that are not in the repository.

##### Revision 73d67dd4 - 03/15/2016 12:08 AM - semyers

published updateinfo only contains units in repo

Errata units in Pulp contain all units in all repos that are linked to errata with the same id, which was resulting in published errata referencing packages that weren't actually available in the published repo. This limits packages in published errata updateinfo XML to only the packages that are contained in the published repo.

fixes #1366 <https://pulp.plan.io/issues/1366>

fixes #1548 <https://pulp.plan.io/issues/1548>

#### History

##### #1 - 11/20/2015 04:39 PM - mhrivnak

- Priority changed from Normal to High
- Triaged changed from No to Yes

##### #3 - 02/11/2016 06:01 PM - jluza

- Version changed from 2.5 to 2.7.1

suggested change at

[https://github.com/release-engineering/pulp\\_rpm/commits/2.7-dev-%231366](https://github.com/release-engineering/pulp_rpm/commits/2.7-dev-%231366)

Few notes:

- it would be definitely better to have some rewindable generator than have as\_generator=False
- it would be better to query packages just for filename field, however I'm not sure if it's possible.

##### #4 - 03/04/2016 02:56 PM - mhrivnak

- Platform Release set to 2.8.1

##### #5 - 03/07/2016 09:01 PM - mhrivnak

There is a bit of similar functionality in the yum profiler. See `pulp_rpm.plugins.profilers.yum.YumProfiler`. Specifically the `_get_rpms_from_errata` and

\_translate\_erratum functions.

- Status changed from *NEW* to *ASSIGNED*
- Assignee set to *semyers*

This looks like a duplicate of [#1548](#). I'll let *semyers* confirm and decide which to close.

**#7 - 03/08/2016 07:48 PM - semyers**

- Has duplicate Issue #1548: *published errata contain packages not in repo added*

**#8 - 03/08/2016 07:54 PM - semyers**

Each issue is related to a different downstream bugzilla issue, so I'm keeping them both open and will ref them both in my commit message. I've linked the issues in Redmine, marking this one as the duplicate. My comments and progress can be followed over on [#1548](#).
