

Python Support - Task #143

Tag pulp-python-0.0.0-1.fc21 into pulp-2.6-fedora21

02/04/2015 11:44 PM - rbarlow

Status:	CLOSED - CURRENTRELEASE	Start date:	
Priority:	High	Due date:	
Assignee:	skarmark@redhat.com	% Done:	100%
Category:		Estimated time:	0:00 hour
Sprint/Milestone:		Tags:	Pulp 2
Platform Release:		Sprint:	February 2015
Target Release - Python:	0.0.0	Quarter:	
Groomed:	No		
Sprint Candidate:	No		

Description

Currently the pulp-2.6-fedora21 target does not exist in Koji, but once it does we need to run this command:

```
$ koji tag-build pulp-2.6-fedora21 pulp-python-0.0.0-1.fc21
```

It is important to do this before we release. Otherwise, the Python plugins won't be available for Fedora 21 with the 2.6.0 release.

History

#1 - 02/04/2015 11:53 PM - cduryee

Does this include scripting the creation of the target?

#2 - 02/05/2015 12:05 AM - rbarlow

On 02/04/2015 05:53 PM, Chris Duryee declared:

Does this include scripting the creation of the target?

This task is just about making sure that the Python plugins make it into the 2.6.0 release. We'll have to make a separate task about creating the pulp-2.6-fedora21 target.

I suppose that once we have such a task, this task should depend on it.

#3 - 02/05/2015 12:20 AM - cduryee

I suppose that once we have such a task, this task should depend on it.

Last sprint all of the tasks/stories were "shovel ready" on day one which I liked. I'd rather it be the same task, but two tasks is OK with me too.

#4 - 02/05/2015 03:16 PM - cduryee

Looks like my prior comments have become moot, the target now exists:)

#5 - 02/07/2015 04:09 PM - rbarlow

- Tags Sprint Candidate added

#6 - 02/09/2015 09:28 PM - mhrivnak

- Sprint/Milestone set to 12

#7 - 02/10/2015 09:45 PM - skarmark@redhat.com

- Status changed from NEW to ASSIGNED

- Assignee set to skarmark@redhat.com

#8 - 02/12/2015 12:04 AM - skarmark@redhat.com

After setting up correct certs for koji, I am getting -

```
$ koji -c ~/.koji/katello-config tag-build pulp-2.6-fedora21 pulp-python-0.0.0-1.fc21
TagError: Package pulp-python not in list for pulp-2.6-fedora21
```

#9 - 02/12/2015 12:15 AM - skarmark@redhat.com

```
$ koji -c ~/.koji/katello-config list-tagged pulp-2.6-fedora21
```

Build Tag Built by

So looks like there are no packages currently in the list for that tag. Is the command in the story description correct then to add python plugins to the 2.6 build?

#10 - 02/12/2015 12:24 AM - rbarlow

On 02/11/2015 06:15 PM, Sayli announced:

So looks like there are no packages currently in the list for that tag. Is the command in the story description correct then to add python plugins to the 2.6 build?

Ah, yes. I forgot that you also need to add the package to the build. I think this will do that:

```
$ koji add-pkg pulp-2.6-fedora21 pulp-python --owner=<your koji username here>
```

#11 - 02/12/2015 01:12 AM - skarmark@redhat.com

- Status changed from ASSIGNED to MODIFIED

- % Done changed from 0 to 100

```
$ koji -c ~/.koji/katello-config add-pkg pulp-2.6-fedora21 pulp-python --owner=skarmark
```

```
$ koji -c ~/.koji/katello-config tag-build pulp-2.6-fedora21 pulp-python-0.0.0-1.fc21
```
