

RPM Support - Issue #1552

applicable errata regeneration tasks not getting spawned

01/19/2016 06:39 PM - pajj@redhat.com

Status:	CLOSED - CURRENTRELEASE	Start date:	
Priority:	High	Due date:	
Assignee:	semyers	Estimated time:	0:00 hour
Category:		Groomed:	No
Sprint/Milestone:		Sprint Candidate:	No
Severity:	3. High	Tags:	Pulp 2
Version:	Master	Sprint:	
Platform Release:	2.8.0	Quarter:	
OS:			
Triaged:	Yes		
Description			
1) Get the zoo5 repo from -> https://github.com/Katello/runcible/tree/master/test/fixtures/repositories/zoo5 (we just need the repo.) Steps below will assume file:///var/www/repositories/zoo5 is the destination			
2)			
<pre>\$ pulp-admin rpm repo create --repo-id=ideate --feed=file:///var/www/repositories/zoo5</pre>			
3)			
Call the content regeneration api with the following rest call.			
D, [2016-01-19T12:32:46.797858 #5378] DEBUG -- : RestClient.post "https://<FQDN>/pulp/api/v2/repositories/actions/content/regenerate_applicability/", {"repo_criteria":{"filters":{"id":{"in":["ideate"]}}}}, "Accept"=>"*/*; q=0.5, application/xml", "Accept-Encoding"=>"gzip, deflate", "Content-Length"=>"68", "accept"=>"application/json", "content_type"=>"application/json"			
The response will show that no spawned tasks are created.

This looks a lot like [#1448](#), but given the slew of issues opened about incorrectly mapped inbound fields in criteria, it's possible that this issue is separate. I'll take a closer look and make sure, but right now I'm thinking that this issue is about the tasks not being spawned because no repo will match the criteria POSTed, and [#1448](#) is about the lack of call reports in the response.

I think it's likely that the repo_criteria in the POST data is not being translated correctly, and needs a similar tweak to what's need in issues like [#1527](#) (et al).

#4 - 01/19/2016 11:08 PM - semyers

Also, and if it's true that the tasks aren't even being spawned because of field translation issues, this would block [#1448](#). In that case, you'll definitely not ever see a useful call report in the response even if we fixed that view to return them, since no tasks will be made to report on.

#5 - 01/27/2016 07:50 PM - semyers

- Blocked by Issue #1448: Generating repo content applicability doesn't return call report added

#6 - 01/27/2016 07:50 PM - semyers

- Blocked by deleted (Issue #1448: Generating repo content applicability doesn't return call report)

- Related to Issue #1448: Generating repo content applicability doesn't return call report added

#8 - 01/27/2016 07:52 PM - semyers

I believe this is currently fixed on master, but it's difficult to be sure unless the fix that was POSTED in [#1448](#) has been applied. Once that issue goes to MODIFIED I'll retest and adjust this issue accordingly.

#9 - 01/29/2016 04:45 PM - semyers

- Status changed from ASSIGNED to MODIFIED

This was fixed by a combination of [#1448](#) and either [#1478](#) or [#1490](#) (not sure which), and will be released with 2.8.0.

#10 - 02/23/2016 09:58 PM - dkliban@redhat.com
