#### Description

I get an error in pulp-admin when I try to list tasks:

```
$ pulp-admin -v tasks list -a
```

```

```
An unexpected error has occurred. More information may be found using the -v
flag.
```

I also get the same error when I use "-s successful". I believe I might be running into this because I created some repos, synced them, and then deleted them.

This is on pulp 2.8 beta which I don't see on the list of versions.
