History

#1 - 03/28/2016 10:13 PM - rbarlow

- Subject changed from *Unit test fails if the system clock is set to be after March 27, 2016. It is after March 27, 2016. to A Pulp unit test is failing to find a certificate to be valid*

jcline pointed out to me that the year on the notBefore was 2012 (not 2016 as I had thought) so I was incorrect about the reason for this failure.
