

Pulp - Story #1832

Worker name does not show up in pulp-admin task detail output

04/08/2016 10:33 PM - bmbouter

Status: CLOSED - WONTFIX	Start date:

Sprint/Milestone:	Tags: Pulp 2
Platform Release:	Sprint:
Groomed: No	Quarter:
Sprint Candidate: No	

Description

Knowing if a task has been routed to a specific worker or not is useful for users for debugging if a task made it through the resource_manager or not. It is included in the API response from a command like:

```
pulp-admin -vv tasks details --task-id a83b32c4-4cb1-439e-a373-91797d0b185a
```

However the worker_name does not show up in the pulp-admin output from:

```
pulp-admin tasks details --task-id a83b32c4-4cb1-439e-a373-91797d0b185a
```

This issue is to have pulp-admin include worker_name in the output on a task detail view.

History

- Tracker changed from Issue to Story
- Groomed set to No
- Sprint Candidate set to No

#2 - 04/26/2016 08:07 PM - kfiresmith

I'm piling onto this because running the with -vv and digging through the json is not great. Certainly not an urgent need but something that would be nice given that sometimes tasks hang and you need to go digging.
