

RPM Support - Story #1836

Applicability query should return unit keys instead of object ids

04/11/2016 07:53 PM - dkliban@redhat.com

Sprint Candidate:	No		

Description

Using the command below, I am querying the API for errata that are applicable to consumer c1:

```
http -a admin:admin --verify=no POST https://localhost/pulp/api/v2/consumers/content/applicability/ < content_app_query.json
```

content_app_query.json looks like this:

```
{
  "criteria": {
    "filters": {"id": {"$in": ["c1"]}}
  },
  "content_types": ["erratum"]
}
```

The API returns:

```
[
  {
    "applicability": {
      "erratum": [
        "b3472b1f-1d68-4f48-bded-d26aee03dc38"
      ]
    },
    "consumers": [
      "c1"
    ]
  }
]
```

However, when I want to use the API to install content on a consumer, I need to provide the unit key which in this case is the errata_id:

```
"errata_id" : "RHEA-2012:0055",
```

I suspect that the applicability querying API should return the unit keys instead of object ids.

History

#1 - 04/11/2016 08:14 PM - dkliban@redhat.com

- Version set to 2.7.1

#2 - 04/11/2016 08:25 PM - dkliban@redhat.com

After some discussion with Justin from Katello, I have determined that the change I proposed is backwards incompatible. Katello uses object ids to query Pulp for full errata documents to store in Katello's database.

#3 - 04/15/2016 05:16 PM - mhrivnak

@dkliban will convert this to a story.

#4 - 04/22/2016 04:19 PM - dkliban@redhat.com

- *Tracker changed from Issue to Story*

- *Subject changed from Applicability query returns unit object ids instead of unit key to Applicability query should return unit keys instead of object ids*

- *Groomed set to No*

- *Sprint Candidate set to No*

#5 - 04/12/2019 10:17 PM - bmbouter

- *Status changed from NEW to CLOSED - WONTFIX*

Pulp 2 is approaching maintenance mode, and this Pulp 2 ticket is not being actively worked on. As such, it is being closed as WONTFIX. Pulp 2 is still accepting contributions though, so if you want to contribute a fix for this ticket, please reopen or comment on it. If you don't have permissions to reopen this ticket, or you want to discuss an issue, please reach out via the [developer mailing list](#).

#6 - 04/15/2019 10:32 PM - bmbouter
