

Docker Support - Issue #2011

docker_distributor_web "protected" documentation is wrong

06/15/2016 06:55 AM - rmcgover

Status:	CLOSED - CURRENTRELEASE	Start date:	
Priority:	Normal	Due date:	
Assignee:		Estimated time:	0:00 hour
Category:		Groomed:	No
Sprint/Milestone:		Sprint Candidate:	No
Severity:	2. Medium	Tags:	Documentation, Easy Fix, Pulp 2
Version - Docker:	master	Sprint:	
Platform Release:		Quarter:	
Target Release - Docker:			
OS:			
Triaged:	Yes		

Description

Regarding docker_distributor_web, <http://pulp-docker.readthedocs.io/en/latest/tech-reference/distributor.html> currently says the "protected" configuration key defaults to true.

Based on testing and reviewing the code, I think this may be incorrect, could it please be checked and updated?

In the references that I can find in the code, it actually defaults to false.

```
plugins/pulp_docker/plugins/distributors/metadata.py:         if config.get('protected', False):
plugins/pulp_docker/plugins/distributors/publish_steps.py:         'protected': self.get_config
().get('protected', False)}
```

As of commit f6cf6f34ee1d2048d5b0dfcc1ecea02b5578d269.
