

Pulp - Task #2145

Ansible playbooks need to pull from Pulp

Sprint Candidate: No	

Description

The ansible playbooks that are used in Jenkins install Pulp bits published on fedorapeople. As Pulp moves into Copr, these ansible playbooks need to be extended to install bits from Copr. They need to support pulling in from one or the other via configuration since different environments running the playbook will need bits from different places.

History

#1 - 08/10/2016 05:33 PM - dkliban@redhat.com

- Groomed changed from No to Yes

#2 - 08/11/2016 02:52 PM - mhrivnak

Is this blocked on getting actual builds working in copr?

#3 - 08/11/2016 03:41 PM - bmbouter

It does not block Copr builds. It does block the ability for any Jenkins job to pull bits built in Copr. I'm adding some blocking relationships now that the Jenkins tickets are made.

- Blocks Task #2161: Create new jenkins jobs for nightly build added

#6 - 08/11/2016 05:36 PM - elyezer

In order to update the playbook the Copr URLs should be known. With that said, can you share how URLs are going to be on Copr, please?

#7 - 11/10/2016 04:58 PM - mhrivnak

- Groomed changed from Yes to No

#8 - 11/10/2016 05:26 PM - amadonna@redhat.com

- Subject changed from Ansible playbooks need to pull from Copr to Ansible playbooks need to pull from Pulp

We have discovered that we will need to pull from Pulp instead of Copr, so this story should be adjusted to reflect that.

#9 - 11/11/2016 08:10 PM - bmbouter

- Checklist item changed from *Extend the playbooks to support the new Copr repo for Pulp* to *Extend the playbooks to support the new Pulp instance*
- Checklist item changed from *Document how to configure ansible to use the Copr repo versus the old repo.* to *Document how to configure ansible to use the Pulp repo*
- Checklist item [] *Setup a permanently, public Pulp installation of Pulp to distribute bits added*
- Tags *Pulp 3* added
