

Pulp - Refactor #2158

Remove pulp_celerybeat use of scheduled calls from database

08/10/2016 10:42 PM - mhrivnak

Status:	CLOSED - CURRENTRELEASE	Start date:	
Priority:	Normal	Due date:	
Assignee:	dkliban@redhat.com	% Done:	100%
Category:		Estimated time:	0:00 hour
Sprint/Milestone:	3.0.0	Tags:	
Platform Release:		Sprint:	Sprint 9
Groomed:	Yes	Quarter:	
Sprint Candidate:	Yes		
Description			
pulp_celerybeat (2.Y) currently loads scheduled calls from mongodb. The 3.0 MVP will not load any scheduled tasks from the database. The code that handles the loading of schedule from DB should be removed.

Revision 365f9fd0 - 10/24/2016 10:35 PM - dkliban@redhat.com

Removes database backed celerybeat schedule

This change also converts worker watcher to use Django. This patch renames the scheduler to pulp_celerybeat.

#7 - 09/21/2016 09:42 PM - bmbouter

This PR would be merged after the work I am doing on my branch. I've left the scheduler.py and worker_watcher.py untouched[0]. Those should be moved to pulp.tasking here[1].

Also this story does not mention that the pulp_celerybeat needs to record the workers correctly in addition to handling scheduled calls. If that is supposed to be a separate story please file one.

- Sprint/Milestone changed from 26 to 27

#12 - 10/21/2016 03:29 PM - mhrivnak

Per PulpCon planning discussion, the MVP does not include the ability for a user to schedule tasks. We should revise this "refactor" issue accordingly.

#13 - 10/21/2016 09:38 PM - dkliban@redhat.com

- Subject changed from Convert pulp_celerybeat to use scheduled calls from django to Remove pulp_celerybeat use of scheduled calls from database

- Description updated

Updated the description and title to reflect the fact that 3.0 MVP will not execute any tasks using schedule data in the database.
