History

#1 - 08/22/2016 03:28 PM - jortel@redhat.com

Should this include a migration to remove additional artifacts from the filesystem?

- Node Certificate
- Node Configuration
- Published Files

#2 - 08/24/2016 02:35 AM - mhrivnak

Oh, very good question. I lean toward making the upgrade migration tool do filesystem cleanup also. Maybe it would be two separate but related tools, or maybe one tool that can do both things. But it's clearly an activity to be done only at upgrade time from 2 to 3. What do you think?
