**Description**

++ This bug was initially created as a clone of [Bugzilla Bug #1094462](#) ++

Description of problem:

It could be handy if there were a "clear" command in the pulp-admin tasks section. This command would use a new API to remove all completed tasks from the server, where completed includes successful, failed, and canceled tasks.

If we really want to get fancy, we could add query parameters to clear specific tasks or ranges of tasks by date or something. It would still be useful if we didn't do this, however, so choose your own adventure.

--- Additional comment from [bbouters@redhat.com](mailto:bbouters@redhat.com) at 05/05/2014 18:17:25 ---

Consider the term "purge" instead of the term "clear" perhaps.
