Description

++ This bug was initially created as a clone of [Bugzilla Bug #1175804](#) ++

Description of problem:

For Satellite 6, we need to be able to route all client communication through the capsule to the consumer's goferd agent. Currently this communication happens on an anonymous topic exchange, which is not routeable in qpid.

goferd/pulp will need to support a named topic exchange in order to enable this routing.

--- Additional comment from mhrivnak@redhat.com at 12/18/2014 18:13:50 ---

To clarify, gofer and pulp use a direct exchange, not a topic exchange. We will proceed with this RFE assuming that's what you meant.

--- Additional comment from stbenjam@redhat.com at 12/19/2014 08:26:46 ---

Yes, sorry, it should be a named direct exchange.

--- Additional comment from jortel@redhat.com at 01/14/2015 15:47:46 ---

Supported in Gofer 2.4 which is included in Pulp 2.6 beta 4. But, still not supported by Pulp.
