

Pulp - Task #2863

Align existing code base with publisher attributes from the MVP

06/30/2017 07:33 PM - amacdona@redhat.com

Status:	CLOSED - COMPLETE	Start date:	
Priority:	High	Due date:	
Assignee:	ttereshc	% Done:	100%
Category:		Estimated time:	0:00 hour
Sprint/Milestone:	3.0.0	Tags:	
Platform Release:		Sprint:	Sprint 23
Groomed:	Yes	Quarter:	
Sprint Candidate:	No		
Description			
In our MVP call today , we altered the language that describes publisher fields. This task is to align the code to what we discussed. Check the repositories section of the MVP page for up to date language.

Publisher model/serializer is correct and complaint with the discussed Publisher attributes for MVP, no changes needed.

Additional attribute auto_publish exists on the model/serializer.

It was suggested to discuss a need for auto_publish functionality in MVP after alpha release.

#10 - 07/26/2017 02:54 PM - bmbouter

If auto_publish is not finalized can we remove it for now. Then we we are sure of it's future we can bring it back. Does that sound OK?

#11 - 07/27/2017 12:33 PM - mhrivnak

I think we are close to finalizing it and just need to discuss it a touch further. Jeff and I agreed so far that auto-publish makes sense to keep and is trivial to use.

We could try to get it added to the MVP, which would then make it clear. But the MVP is of course a minimum, and nothing stops us from strategically including additional things where they make sense. So we could just leave this in and use it.

Either way, let's keep it for now and discuss as necessary.
