Description

For long running tasks (syncs, publishes) I would like to see when individual step started and finished. With this information we can determine most problematic parts of async tasks and focus on their improvement.

History

#1 - 09/07/2017 01:55 PM - ipanova@redhat.com

- Subject changed from As user I can see when sub task started and finished to As user I can see when each sync/publish step started and finished
- Description updated

#2 - 09/08/2017 04:55 PM - amacdona@redhat.com

- Tags Pulp 3, RCM added

This one won't be fixed in Pulp 2, I've marked it as a Pulp3 story.

#3 - 11/29/2018 01:34 AM - amacdona@redhat.com

- Status changed from NEW to CLOSED - CURRENTRELEASE

Tasks have `started_at` and `finished_at`
