Description

A CLI wrapper should be written to pass CLI commands to coreapi-cli [0]

This wrapper should pass commands as is to coreapi-cli. It would be a 1-1 mapping to the REST API.

[0] <http://www.coreapi.org/tools-and-resources/command-line-client>

Subtasks:

Story # 2557: As a user, the pulp-admin CLI should give me well organized help text
