OS:		Sprint:	Sprint 28
Triaged:	Yes	Quarter:	

Description

In <https://docs.pulpproject.org/dev-guide/integration/rest-api/consumer/applicability.html> , section "Generate Content Applicability for Updated Repositories", there is Sample request:

```
{
  "repo_criteria": {
    "filters": {"id": {"$in": ["test-repo", "test-errata"]}},
    "parallel": true
  }
}
```

However "parallel" is not a part of "repo_criteria" but a parameter on the same level. That Sample request should be:

```
{
  "repo_criteria": {
    "filters": {"id": {"$in": ["test-repo", "test-errata"]}},
  },
  "parallel": true
}
```
