Description

There are posts in the repo for Nov 9 and Nov 21, but those corresponding posts, don't show up on the website: <https://pulpproject.org/blog/>

For example take this post: https://github.com/pulp/pulpproject.org/blob/gh-pages/_posts/2017-11-09-community-demo.md

It should be listed here: <https://pulpproject.org/blog/>

When I push that same code to my forked version on Github Pages, I do see it here: <https://bmbouter.github.io/pulpproject.org/blog/>

- Status changed from NEW to CLOSED - WORKSFORME

After merging another PR now they are built correctly. This does not seem to be an issue anymore so I'm closing as WORKSFORME.
