

Python Support - Task #3294

Story # 3209 (CLOSED - CURRENTRELEASE): As a user, I have Repository Versions

Update Python plugin to sync with versioned repositories

01/18/2018 01:49 PM - amacdona@redhat.com

Status: MODIFIED	Start date:
Priority: Normal	Due date:
Assignee: amacdona@redhat.com	% Done: 100%
Category:	Estimated time: 0:00 hour
Sprint/Milestone:	Tags:
Platform Release: 3.0.0	Sprint: Sprint 32
Target Release - Python:	Quarter:
Groomed: No	
Sprint Candidate: No	

Description

This task is to:

1. Create a celery task called `sync` in pulp_python.app.tasks.py
2. define a POST detail route called sync on PythonImporterViewSet that deploys the celery task with reservation for the repository. This viewset should accept `repository` as a POST body parameter.

The logic defined in the task should be taken from models.PythonImporter.sync. Validation and setting the working directory that used to live in pulpcore.tasks.importer.sync should also be added to this task.

See <https://pulp.plan.io/issues/3260> as an example
