

Pulp - Issue #330

Pulp packages are missing documentation

02/28/2015 09:56 PM - slukasik@redhat.com

Status:	CLOSED - CURRENTRELEASE	Start date:	
Priority:	Low	Due date:	
Assignee:	cduryee	Estimated time:	0:00 hour
Category:			
Sprint/Milestone:			
Severity:	1. Low	Groomed:	No
Version:		Sprint Candidate:	No
Platform Release:	2.6.0	Tags:	Pulp 2
OS:		Sprint:	
Triaged:	Yes	Quarter:	
Description			
Description of problem:			
Version-Release number of selected component (if applicable):			
pulp-client-0.0.206-1.fc14.noarch			
pulp-common-0.0.206-1.fc14.noarch			
pulp-cds-0.0.206-1.fc14.noarch			
pulp-0.0.206-1.fc14.noarch			
How reproducible:			
deterministic			
Steps to Reproduce:			
1. rpm -qld pulp-client pulp-common pulp-cds pulp			
2.			
3.			
Actual results:			
None			
Expected results:			
readme files and man pages			
Additional info:

History

#1 - 02/28/2015 09:58 PM - skarmark@redhat.com

We currently do not have man pages for pulp and there is an RFE open for that.

#2 - 02/28/2015 09:58 PM - jason.dobies@redhat.com

Closing out as not a bug. It's not that they aren't included, it's that they aren't written yet :) We'll be adding them as a separate RFE.

(In reply to comment [#2](#))

Closing out as not a bug. It's not that they aren't included, it's that they aren't written yet :)

This is not a fun. It is actually the reason why this ticket exists.

We'll be adding them as a separate RFE.

I don't want to see any bug being closed without resolution or link to another tracking ticket.

```
rpm -qa pulp-server
```

```
pulp-server-2.6.0-0.2.beta.el6.noarch
```

```
man pulp-admin | head -n 15
```

PULP-ADMIN (1) Pulp Project PULP-ADMIN (1)

NAME

pulp-admin - Pulp Documentation

Contents:

INTRODUCTION

The admin client is used to remotely manage a Pulp server. This client is used to manage the operation of the server itself as well as trigger remote operations on registered consumers.

For more information on the client that runs on Pulp consumers, see the

```
man pulp-consumer | head -n 15
```

PULP-CONSUMER (1) Pulp Project PULP-CONSUMER (1)

NAME

pulp-consumer - Pulp Documentation

Contents:

INTRODUCING THE PULP CONSUMER CLIENT

The Pulp consumer client, `pulp-consumer`, is a command line tool that allows administrators to register a consumer, bind that consumer to Pulp managed repositories, and install content onto the consumer from those bound repositories.
