

## Pulp - Task #3369

### Create an ER diagram

02/13/2018 07:46 PM - milan

|                          |                  |                        |               |
|--------------------------|------------------|------------------------|---------------|
| <b>Status:</b>           | CLOSED - WONTFIX | <b>Start date:</b>     |               |
| <b>Priority:</b>         | Normal           | <b>Due date:</b>       |               |
| <b>Assignee:</b>         |                  | <b>% Done:</b>         | 0%            |
| <b>Category:</b>         |                  | <b>Estimated time:</b> | 0:00 hour     |
| <b>Sprint/Milestone:</b> |                  | <b>Tags:</b>           | Documentation |
| <b>Platform Release:</b> | 3.0.0            | <b>Sprint:</b>         |               |
| <b>Groomed:</b>          | No               | <b>Quarter:</b>        |               |
| <b>Sprint Candidate:</b> | No               |                        |               |

#### Description

Based on the [Plugin Writer's Coding Workshop Feedback](#), the need for examples, a database picture would be helpful to show off the data layer objects, foreign keys, and attributes.

+1 to having diagrams like this.

My concern w/ a diagram like this is that it will become out of date quickly. Rather than building it once, what if we had the docs auto-build it with each build?

Here is a SO post w/ some related links: <https://stackoverflow.com/a/6777376>

##### #2 - 02/27/2018 05:33 PM - milan

Valid concern; I'd also prefer auto-generating if possible.
