

## Ansible Plugin - Story #3529

As an authenticated user, I can upload ansible roles into a pulp repository.

03/27/2018 03:49 PM - daviddavis

| <b>Category:</b>   |                         | <b>Estimated time:</b>         | 0:00 hour |
| <b>Sprint/Milestone:</b>   | 0.1 Release             | <b>Tags:</b>                   |           |
| <b>Platform Release:</b>   |                         | <b>Sprint:</b>                 |           |
| <b>Groomed:</b>  | No                      | <b>Quarter:</b>                |           |
| <b>Sprint Candidate:</b>   | No                      |                                |           |
| <b>Description</b>   |                         |                                |           |
| Workflow:  |                         |                                |           |
| 1. User uploads role version tar to /artifacts/ creating new Artifact record   |                         |                                |           |
| 2. User creates a new role by posting to /content/ansible/roles/ (optional)  |                         |                                |           |
| 3. User creates a new role version by posting to /content/ansible/roles/<uuid>/versions/. The fields would be role (href), version or version name (string), and artifact (href) |                         |                                |           |
| Steps 1-2 were taken care of in this PR:   |                         |                                |           |
| <a href="https://github.com/pulp/pulp_ansible/pull/6">https://github.com/pulp/pulp_ansible/pull/6</a>  |                         |                                |           |
| Step 3 is outstanding.   |                         |                                |           |
| <b>Related issues:</b>   |                         |                                |           |
| Blocked by Ansible Plugin - Story #3549: As a user, I can list ansible roles   |                         | <b>CLOSED - CURRENTRELEASE</b> |           |

### Associated revisions

#### Revision 7955e94b - 04/18/2018 10:31 PM - daviddavis

Allow users to upload role versions

fixes #3529 <https://pulp.plan.io/issues/3529>

### History

#### #1 - 03/27/2018 03:55 PM - bmbouter

- Tracker changed from Issue to Story

- % Done set to 0

#### #2 - 03/27/2018 03:58 PM - bmbouter

- Description updated

#### #3 - 03/29/2018 09:31 PM - daviddavis

Some questions to answer:

1. Do I create a role and role version separately? They're two models in our codebase.
2. What parameters ought to be supplied to create a role version?
