Description			
Currently in our api, we have a single endpoint for content (/content/ansible/) which returns ansible role versions. We abstract away ansible roles. This task is to create two separate endpoints:			
<ul style="list-style-type: none">• /content/ansible/roles/• /content/ansible/roles/<uuid>/versions/			
This more closely mirrors what exists in galaxy.

- Blocks Story #3529: As an authenticated user, I can upload ansible roles into a pulp repository. added

#2 - 04/04/2018 10:56 PM - bmbouter

- Sprint/Milestone set to 0.1 Release

- Groomed changed from No to Yes

- Sprint set to Sprint 35

This looks exactly correct. Thanks @daviddavis!
