##### Revision 2417a5ec - 04/24/2019 05:00 AM - Grant Byers

Re: #3625 <https://pulp.plan.io/issues/3625>

Add support for anonymous proxy (see <https://pulp.plan.io/issues/3625>)

#### History

In a distributed environment, it's useful to be able to proxy REST API requests via an anonymous HTTP proxy. This is particularly useful in environments where cloud based consumers need to communicate with a pulp server within an internal/private network without resorting to source and/or destination NAT. The same is true of consumers residing in a private network - they should be able to communicate with a Pulp server indirectly.

yum repositories already support HTTP proxies, as does the Pulp server for content syncing. It makes sense that the CLI tools also support HTTP proxy.

##### #2 - 11/29/2018 12:58 AM - amacdona@redhat.com

- Project changed from Pulp to Pulp CLI

##### #3 - 11/29/2018 01:03 AM - amacdona@redhat.com

- Project changed from Pulp CLI to Pulp

Switching back to pulp project since this isn't a pulp3 issue.
