Pulp - Issue #3635

Improve filter documentation by creating a BaseFilterSet class to automatically set filter help text

05/01/2018 03:28 PM - amacdona@redhat.com

Version:		**Sprint Candidate:**	No
Platform Release:		**Tags:**	Documentation
OS:		**Sprint:**	Sprint 40
Triaged:	Yes	**Quarter:**	

Description

The filters are not as well documented as other parameters.

Example:
https://docs.pulpproject.org/en/3.0/nightly/integration-guide/rest-api/index.html#get--repositories-repository_pk-versions-

It would be really nice to add help text to each of the filters, particularly the filters that are tricky to get right like the created__gte.

This does not appear to be supported by django. At least not in the documented API.

- Subject changed from Improve filter documentation to Improve filter documentation by creating a BaseFilterSet class to automatically set filter help text

I'm reducing the scope of this bug to simply create a BaseFilterSet class to automatically set filter help text. Will open some other issues around ways the filter text could be improved.
