

Pulp - Task #3773

Test the template

06/19/2018 03:58 PM - amacdona@redhat.com

Status:	CLOSED - CURRENTRELEASE	Start date:	
Priority:	Normal	Due date:	
Assignee:	dalley	% Done:	100%
Category:		Estimated time:	0:00 hour
Sprint/Milestone:	3.0.0	Tags:	Plugin Template
Platform Release:		Sprint:	Sprint 41
Groomed:	Yes	Quarter:	
Sprint Candidate:	No		

Description

This task has a multiple components. For planning purposes, I'll include it all here, and break into separate stories if requested.

1) Create a travis job

- install pulpcore, pulp-smash and deps
- bootstrap a test plugin using the instructions in the template
- install the test plugin,
- run the webserver and workers.
- record output of these steps and fail if they don't succeed

2) Add smash tests.

- Tests should be organized in a directory structure that can be expanded the plugin writers. Tests should live in plugin_template/tests/functional/.
- Any Tests that will not be useful to a plugin writer (we could include Plugin API tests for commented out code) should be in a directory that is skipped by the bootstrapper. plugin_template/tests/functional/template/
- Write API tests
 - Test discoverability via /v3/status
 - Test CRUD [Content | Remote | Publisher]
 - Test sync - A new repository version will be created, with no content
 - Test publish - A new publication will be created, with no content

Associated revisions

Revision 479e00af - 08/13/2018 10:42 PM - dalley

Update and add tests to the template

- Updated the travis config/script files
- Updated the sync template for DeclarativeVersion
- Added new functionality to bootstrap.py to be able to remove anything between TEMPLATE_REMOVE_START and TEMPLATE_REMOVE_END tags.
- Added smash and unit test templates
- Updated the README to use int IDs

closes #3773 <https://pulp.plan.io/issues/3773>

- Description updated

#2 - 06/19/2018 04:15 PM - amacdona@redhat.com

- Sprint Candidate changed from No to Yes

#3 - 06/19/2018 04:29 PM - bmbouter

Can we s/Jenkins// and only use Travis? that's how all testing for Pulp3 is currently done and I'm hoping we can avoid having multiple infras for upstream.

#4 - 06/19/2018 05:07 PM - amacdona@redhat.com

- Description updated

Updated to use travis, not jenkins

#5 - 06/21/2018 03:21 PM - dkliban@redhat.com

Could you please expand the 'bootstraps a test plugin from the template' step. Please list all the classes that should be created. I can think of TemplateRemote, TemplateContent, TemplatePublisher. Is there anything else?

#6 - 06/21/2018 03:23 PM - amacdona@redhat.com

@dkliban, the bootstrapping is already done. Here, we should just use the `bootstrap.py` module, following the directions in the docs.

https://github.com/pulp/plugin_template/blob/master/README.rst

#7 - 06/21/2018 03:27 PM - amacdona@redhat.com

- Description updated

#8 - 06/21/2018 03:29 PM - dkliban@redhat.com

- Groomed changed from No to Yes

#9 - 06/26/2018 03:49 PM - rchan

- Sprint Candidate changed from Yes to No

#10 - 06/26/2018 10:07 PM - rchan

- Sprint set to Sprint 39

#11 - 06/27/2018 11:26 PM - dalley

- Status changed from NEW to ASSIGNED

#12 - 07/09/2018 11:50 PM - dalley

Part 1 PR: https://github.com/pulp/plugin_template/pull/10

Part 2 will be pushed back a bit due to waiting on Pulp Smash to stabilize a bit

#13 - 07/09/2018 11:50 PM - dalley

- Assignee set to dalley

#14 - 07/16/2018 01:11 AM - dkliban@redhat.com

- Sprint changed from Sprint 39 to Sprint 40

#15 - 08/06/2018 03:16 PM - rchan

- Sprint changed from Sprint 40 to Sprint 41

#16 - 08/12/2018 07:22 PM - dalley

- Status changed from ASSIGNED to POST
