Support uploading modules.yaml files for rpm repos

fixes #3873 <https://pulp.plan.io/issues/3873>

History

#1 - 07/19/2018 07:41 PM - daviddavis

- Assignee set to daviddavis

#2 - 07/19/2018 08:08 PM - daviddavis

I'm following the pattern that comps.xml uses where a file can be imported against any content type but it all calls the same function:

https://github.com/pulp/pulp_rpm/blob/2-master/plugins/pulp_rpm/plugins/importers/yum/upload.py#L108-L111

So users will be able to upload modules.yaml files against modulemd or modulemd-defaults but all of the content in the file will be processed (both modules and defaults). I think this make the most sense users will want to upload modules.yaml file from repos like F28 and these can contain both content types.
