- Description updated

#2 - 08/03/2018 04:49 PM - ttereshc

- Tracker changed from Issue to Story

- Subject changed from *pulp-admin rpm repo publish - requires distributor_id* to *As a user, I can specify distributor_id via pulp-admin during publish*

- % Done set to 0

There could be multiple distributors of the same type for a repo, so we can't use distributor_type in pulp-admin.

pulp-admin works for simple basic cases, and if one create a repo via pulp-admin they don't have a choice for a distributor. It's unfortunate but currently it is possible to work with custom distributors only via API.

Converting this issue to a story (RFE) to be able to specify distributor_id in pulp-admin

#3 - 08/06/2018 10:30 PM - wibbit

Funnily enough I was talking to my colleague about this earlier today, and said just that.

If this is an RFE, I think it would be worth while expanding the scope slightly, as there are numerous places that this issue comes up, not just with the publish.

I'll let people know that for now, and the foreseeable future, we'll need to ensure that we implement every thing in our own code.
