

File Support - Story #3913

As a user I can specify the manifest filename when publishing a repo version

08/13/2018 05:24 PM - daviddavis

Status:	CLOSED - CURRENTRELEASE	Start date:	
Priority:	Normal	Due date:	
Assignee:	vdusek	% Done:	100%
Category:		Estimated time:	0:00 hour
Sprint/Milestone:	0.1.0	Tags:	
Platform Release:		Sprint:	
Groomed:	No	Quarter:	
Sprint Candidate:	No		
Description			
Currently, the filename is hardcoded as PULP_MANIFEST. Allow users to specify a filename on the file publisher to be used when publishing. Optimally, the default should be the same as in #3912 (ie manifest.csv).

Allow custom name of the manifest when syncing and publishing

When creating a remote user can specify his own name of the manifest. As a path to it will be used url/manifest. For example: \$ http POST .../remotes/file/ name=rem1 url=https://repos.fedorapeople.org/pulp/pulp/demo_repos/test_file_repo/ manifest=PULP_MANIFEST

Same situation when creating a publisher. For example: \$ http POST .../publishers/file/ name=publisher1 manifest=my_manifest.csv
