Hello,

Are there any plans of implenmenting this feature? It's tagged as being triage. Additionally, I would assume the workaround is to schedule this via cron?

Regards

- Severity set to 1. Low

I don't know when this will get worked on, but it could be an area for a community contribution. Cron with pulp-admin is a good workaround.

I was trying to look for a consumer group action to schedule a patching
cycle but couldn't find it in the current version 2.13.1.

Is there a plan to implement this feature?
