Pulp - Test #4125

Test if creating duplicate content results in 400

11/06/2018 02:53 PM - kersom

Status:	CLOSED - COMPLETE		
Priority:	Normal		
Assignee:	kersom		
Category:			
Sprint/Milestone:			
Version:		**Sprint:**	
Platform Release:		**Quarter:**	
Tags:			

Description

- Evaluate if we already have similar tests in place.
- Create duplicate content
- Assert that an HTTP Bad Request - 400 was raised
- Assert that an error (e.g. "There is already a file content unit with relativepath 'foo.tar.gz' and artifact '/pulp/api/v3/artifacts/1/'.") is returned

Associated revisions

Revision 38e035bb - 12/19/2018 10:18 PM - kersom

Add test to create duplicate content units

Add test to create duplicate content units. They have to share the same artifact and relative_path.

https://pulp.plan.io/issues/4125 ref: #4125

Revision ce395742 - 01/09/2019 04:53 PM - kersom

Expand duplicate content unit test case

Expand newly added duplicate content unit test case. Add a test case to confirm that content units using the same artifact, but different relative_paths can be create without raise an HTTP exception.

https://pulp.plan.io/issues/4125 ref: #4125

Revision 721966a0 - 01/09/2019 10:49 PM - kersom

Add test to create duplicate content units

Add test to create content duplicate content units.

This needs to be tested against all plugins (not just pulp_file). To reproduce for other plugins, look at their docs for how to create a content unit and send the same request twice. You should receive a nice 400 + error message.

- Checklist item [ ] Add pulp_docker added
Checklist item [ ] Add pulp_rpm added
Checklist item [ ] Add to plugin template as well added

#6 - 12/19/2018 10:41 PM - kersom

- Subject changed from Test if creating duplicate content results in 500 to Test if creating duplicate content results in 400

#7 - 12/20/2018 08:07 PM - kersom

- Status changed from NEW to ASSIGNED

#8 - 01/04/2019 11:10 PM - dalley

@David Would it make sense to add this to the "using plugin" section of the pulpcore functional smash tests instead of for each individual plugin?

#9 - 01/19/2019 06:44 AM - dalley

- Checklist item [x] Add pulp_file added
Checklist item [ ] Add pulp_python added
Checklist item [ ] Add pulp_ansible added

Adding a few to the checklist -- you don't have to worry about the plugins QE isn't responsible for, but it would really help us to still track those plugins on the same issue.

Maybe we should add a new status which means that QE has finished with it, but it still needs the non-productized plugin teams to take a look and port the changes to their own codebases.
