Description

A fixture repo needs to be created (or current ones can be updated) with zchunk metadata.

Zchunk metadata is ignored during sync and not generated at publish time by default

- sync repo with zchunk metadata
- publish repo
- check that there is no zchunk metadata published

Associated revisions

Revision e4699997 - 04/18/2019 06:41 PM - bherring

Adding verification for skipping zchunks in repodata on sync.

The inclusion of #4529 into 2.19.1 accounts for zchunks archives existing in repodata as .zck files. The feature was added to Fedora 30 with patches to createrepo_c --zck.

At this time, there are no repos that have purely .zck archives nor was that a consideration in the feature update.
