### Associated revisions

Revision 51bf29c8 - 05/02/2019 02:17 AM - bmbouter

Adds basic Collection model

<https://pulp.plan.io/issues/4633>

closes #4633

### History

#1 - 04/03/2019 04:19 PM - bmbouter

- Subject changed from define Collection model and CollectionVersion content model to Define Collection model and CollectionVersion content model

#2 - 04/15/2019 10:28 PM - bmbouter

- Description updated

@davidDavis why did we go with the Role, RoleVersion design versus just a RoleVersion and then fancy views to deduplicate the Role data?

#3 - 04/15/2019 10:48 PM - davidDavis

Two reasons. The first was normalization. The second is that we were basing our models off the ones in Galaxy which also had a Role<sup>0</sup> and a RoleVersion<sup>1</sup>.

I'm not opposed to having one model especially since it seems like Collection is a lot smaller than Role was.
