incremental publish of yum_repo_metadata_repo fails after upgrade from 2.18/2.19 to 2-master

04/23/2019 09:45 PM - bherring

Status: CLOSED - WONTFIX	
Priority: High

Sprint/Milestone:	
Version:	Sprint:
Platform Release:	Quarter:
Tags: Pulp 2	
Description	
Steps to reproduce:	
1. use Pulp 2.18	
2. sync repo with yum_repo_metadata_file (e.g any RHEL repo contains productid which is of the type we need)	
3. publish it (in the publish directory there should be a symlink to /var/lib/pulp/published/./././productid)	
4. upgrade to the 2-master (commit c86c4339b9c1b4f158af1e961e8d68492dd2a760)	
5. upload any rpm to the repo (to make publish incremental)	
6. publish the repo, see the error below:
