#### History

##### #1 - 05/16/2019 08:28 PM - daviddavis

- Subject changed from I can create repo version distributions without repo and without repo versions to Prevent users from creating repo version distributions without repo and without repo versions

##### #2 - 05/17/2019 12:15 PM - ipanova@redhat.com

- Related to Issue #4840: Prevent users from creating publication distributions without a publication added

##### #3 - 05/17/2019 04:58 PM - daviddavis

- Status changed from NEW to CLOSED - WONTFIX

We decided that we'll allow users to create distributions without distributing anything. This could be to reserve a path namespace, take a repo/repo version offline quickly without having to delete the distribution, etc
