#### Description

Description of problem:

TAB completion for pulp-admin doesn't return short options

How reproducible:

always

Steps to Reproduce:

```
pulp-admin u admin -p admin rpm repo list -
```

--all --details --fields --help --summary

```
pulp-admin -u admin -p admin rpm repo list --help
```

Command: list

Description: lists repositories on the Pulp server

Available Arguments:

```
--summary, -s - if specified, a condensed view with just the repository ID and  
name is displayed  
--details - if specified, detailed configuration information is displayed  
for each repository  
--fields - comma-separated list of repository fields; if specified, only  
the given fields will be displayed  
--all, -a - if specified, information on all Pulp repositories, regardless  
of type, will be displayed
```

```
pulp-admin -u admin -p admin rpm repo list -s[TAB][TAB]
```

... nothing here

Expected results:

```
pulp-admin -u admin -p admin rpm repo list -[TAB][TAB]
```

-a --all --details --fields --help -s --summary
