

Ansible Plugin - Issue #5001

Provide content_ansible_collection_read method for ansible collections

06/20/2019 08:37 PM - sajha

Status:	CLOSED - CURRENTRELEASE	Start date:	
Priority:	High	Due date:	
Assignee:	bmbouter	Estimated time:	0:00 hour
Category:		Sprint Candidate:	No
Sprint/Milestone:		Tags:	Katello
Severity:	2. Medium	Sprint:	
Platform Release:		Quarter:	
OS:			
Triaged:	No		
Groomed:	No		
Description			
We need the ability to read ansible collection content similar to other content types ex: https://pulp-ansible.readthedocs.io/en/latest/restapi.html#operation/content_ansible_roles_read .

Revision ee8dfc11 - 07/04/2019 04:08 PM - bmbouter

Update openAPI schema

The docs were showing out of date calls so this updates the schema which will update the REST API docs.

<https://pulp.plan.io/issues/5001> closes #5001

History

#1 - 06/20/2019 08:57 PM - bmbouter

My goal is to have pulp_ansible implement what Galaxy is implementing so I'm waiting on upstream galaxy to fix <https://github.com/ansible/galaxy/issues/1842> first

There is a method like that already, but it's not showing up in the api docs because they are out of date. I have another PR open which should bring them up to date, but here is what you can do in the meantime.

After syncing in a collection I can list collections with:

<http://localhost:24817/pulp/api/v3/content/ansible/collections/>

I can read a single collection with UUID=3644ad76-ddbe-4e51-8d9b-495c97fa26fd using:

<http://localhost:24817/pulp/api/v3/content/ansible/collections/3644ad76-ddbe-4e51-8d9b-495c97fa26fd/>

#5 - 07/04/2019 03:53 PM - bmbouter

Please reopen if I've misunderstood the need here. We want to make sure this is working as needed.

#6 - 07/04/2019 04:00 PM - bmbouter

- Status changed from CLOSED - NOTABUG to ASSIGNED

Actually I'm going to reopen this and make a PR just to update the schema. That will be better because it can have its own release note then.
