Description	

History

#1 - 06/26/2019 02:47 PM - bmbouter

- Parent task set to #3802

#2 - 06/25/2020 03:49 PM - quba42

I am unsure how to evaluate/approach this.

From the parent issue I am guessing there was some pulpcore change at some point that pulp_deb has yet to take advantage of?

#3 - 06/25/2020 03:54 PM - bmbouter

Yes I think we should try to proof out a sustainable design pattern using pulp_file first. If you have need to move this story forward and need collaboration on it, let us know and we can prioritize that collaboration.

#4 - 08/31/2020 05:09 PM - dkliban@redhat.com

- Status changed from NEW to CLOSED - WONTFIX

Users should create a new remote and use that remote for a one time sync.
