

Ansible Plugin - Story #5050

As a user, I can upload a collection to the one-shot uploader

06/27/2019 04:08 PM - bmbouter

Status:	CLOSED - CURRENTRELEASE	Start date:	
Priority:	Normal	Due date:	
Assignee:	bmbouter	% Done:	100%

Sprint/Milestone:		Tags:	API Bindings, Documentation
Platform Release:		Sprint:	Sprint 55
Groomed:	Yes	Quarter:	
Sprint Candidate:	No		
Description			
Problem			
Currently the one-shot uploader only is available via the galaxy bindings.			
Solution			
Add a one-shot uploader view that will use the same collection import task code. This needs to be available in the swagger API so it can be in the docs and bindings too.

Revision e5963cce - 07/03/2019 10:12 PM - bmbouter

Added Collection One Shot Uploader

The import_collection task was used by the Galaxy API to receive an artifact from mazer, but this reuses it for a new viewset in the Django API.

<https://pulp.plan.io/issues/5050> closes #5050

History

#1 - 06/27/2019 06:06 PM - daviddavis

Where do the collection fields (namespace, name, version) come from? Also, how will we use the same collection import task code? copy+paste it?

#2 - 06/27/2019 07:38 PM - bmbouter

The import_collection code opens up the tarball. The import collection code is the RQ task that already exists in Pulp.
