Description			
Update collection models to store metadata retrieved from collection as a result of artifact importing and linting process. Collection models should be match when possible existing Galaxy collection models.			

Associated revisions

Revision d1904880 - 07/12/2019 05:34 PM - Alexander Saprykin

Advanced collecttions models

Implement collection database models that store additional collection information retrieved by importing collection artifact.

fixes #5105 <https://pulp.plan.io/issues/5105>
