

Pulp - Issue #516

Updating a sync plan's frequency does not seem to affect future syncs

02/28/2015 11:18 PM - jsherril@redhat.com

Status:	CLOSED - CURRENTRELEASE	Start date:	
Priority:	Normal	Due date:	
Assignee:	cduryee	Estimated time:	0:00 hour
Category:			
Sprint/Milestone:			
Severity:	2. Medium	Groomed:	No
Version:	2.4.1	Sprint Candidate:	No
Platform Release:	2.6.0	Tags:	Pulp 2
OS:		Sprint:	
Triaged:	Yes	Quarter:	

Description

Description of problem:

When updating a sync plan from hourly to daily, the 'next_run' times do not seem to update at all.

Version-Release number of selected component (if applicable):

2.4.1

How reproducible:

Always

Steps to Reproduce:

1. Create a schedule on a repo to sync every hour
2. Update the schedule to sync daily

Actual results:

Repo still appears to sync every hour

Expected results:

Repo starts syncing daily

Additional info:

Initially with a schedule of:

"2014-08-27T00:38:00Z/PT1H" I get a 'next_run' time of "2014-09-08T22:38:00Z"

Changing the schedule to:

"2014-08-27T00:38:00Z/PT24H" leaves the 'next_run' time at "2014-09-08T22:38:00Z"

Waiting a couple hours, its still scheduling hourly. next_run: "2014-09-09T01:38:00Z"

Even the next day: "2014-09-09T13:38:00Z"

History

#1 - 02/28/2015 11:18 PM - mhrivnak

I was able to reproduce this. I created the same schedule for a repo sync, and after it ran once, I did the same update from 1H to 24H. I then did a schedule list:

```
$ pulp-admin rpm repo sync schedules list --repo-id=zoo
```

Schedules

Schedule: 2014-08-27T00:38:00Z/PT24H
Id: 540f090a3de3a318ada71a76
Enabled: True
Next Run: 2014-09-09T14:38:00Z

Then I waited until after 14:38:00Z, and did another schedule list:

```
$ pulp-admin rpm repo sync schedules list --repo-id=zoo
```

Schedules

Schedule: 2014-08-27T00:38:00Z/PT24H
Id: 540f090a3de3a318ada71a76
Enabled: True
Next Run: 2014-09-09T15:38:00Z

The schedule is continuing to run hourly.
