<b>Description</b> It's an epic to migrate repositories and everything related to them (importers, distributors).  Simple case (when everything is migrated, no details in the Migration Plan): - create a repo - create a remote (plugin's responsibility) - migrate content - create a repo version - -create content guards (plugin's responsibility)- - create publications/distributions (plugin's responsibility)  Complicated case (very similar, just ensure not to migrate everything) : - repo (only mentioned in a MP) - remote (plugin) (only mentioned in a MP) - migrate content - repo versions (in a specific order mentioned in a MP) - -create content guards (plugin)- - create publications/distributions (plugin) (only mentioned in a MP)	
<b>Subtasks:</b> Task # 5306: Add models to pre-migrate pulp 2 data about repositories/importers/distrib... <b>CLOSED - CURRENTRELEASE</b> Story # 5340: As a user, I can migrate Pulp 2 repository and importer to Pulp 3 <b>CLOSED - CURRENTRELEASE</b> Story # 5342: As a user, I can migrate repository into a set of repository versions <b>CLOSED - CURRENTRELEASE</b> Story # 5343: As a user, I can migrate Pulp 2 distributor into publication/distribution... <b>CLOSED - CURRENTRELEASE</b>
