

Ansible Plugin - Issue #5309

Download only specified version on requirements.yml

08/20/2019 08:59 PM - fao89

Status: CLOSED - DUPLICATE	Start date:
Priority: Normal	Due date:
Assignee:	Estimated time: 0:00 hour
Category:	
Sprint/Milestone:	
Severity: 2. Medium	Sprint Candidate: No
Platform Release:	Tags:
OS:	Sprint:
Triaged: Yes	Quarter:
Groomed: No	

Description

Currently, even when the version is specified, pulp_ansible downloads all versions.

```
# With the collection name, version, and source options
- name: my_namespace.my_other_collection
  version: 'version number'
  source: 'The Galaxy URL to pull the collection from (default: ``--api-server`` from cmdline)'
```

We would like to download only the specified version.
