

Ansible Plugin - Issue #5332

Provide content_ansible_collection_read method for ansible collections

08/22/2019 06:20 PM - jsherril@redhat.com

Status:	CLOSED - CURRENTRELEASE	Start date:	
Priority:	Normal	Due date:	
Assignee:	fao89	Estimated time:	0:00 hour
Category:		Sprint Candidate:	No
Sprint/Milestone:	0.2.0	Tags:	Katello
Severity:	2. Medium	Sprint:	Sprint 58
Platform Release:		Quarter:	
OS:			
Triaged:	Yes		
Groomed:	No		

Description

We need the ability to read ansible collection content similar to other content types ex:
https://pulp-ansible.readthedocs.io/en/latest/restapi.html#operation/content_ansible_roles_read.

This particular api is present, but it doesn't appear to show up in the bindings.

The Api works:

```
GET /pulp/api/v3/content/ansible/collections/f98e7514-5340-4303-80b4-f81aa2343930/
```

but there seems to not be any way to access it in the bindings.

I think the problem is that we're returning CollectionVersions from the /api/v3/content/ansible/collections/ endpoint. We probably need separate collection and collection versions endpoint.

#8 - 09/07/2019 12:24 AM - bmbouter

I believe this is a subset of <https://pulp.plan.io/issues/5238>

#9 - 09/10/2019 08:28 PM - daviddavis

- *Triaged changed from No to Yes*
- *Sprint set to Sprint 58*

To solve this problem, we should remove the collection viewsets and just show collection versions (/pulp/api/v3/content/ansible/collection_versions).
