**Description**

The python bindings do not seem to provide any sort of license: <https://pypi.org/project/pulp-ansible-client/#description>

and the ruby bindings suggest it is using GPLv2, but in reality its more accurately GPLv2+ [https://rubygems.org/gems/pulp\\_file\\_client](https://rubygems.org/gems/pulp_file_client)

I can fix the ruby gem license easily as it just requires modifying this line:

<https://github.com/pulp/pulp-openapi-generator/blob/9ad63e8cd90bf995b7e11c9da0315483b778f490/generate.sh#L35>

The python bindings license is trickier as there currently is no option for the python generator:

Opened a PR to fix the ruby bindings gem license: <https://github.com/pulp/pulp-openapi-generator/pull/23>

The python bindings will require a PR to openapi-generator which I am working on.

- Sprint/Milestone deleted (3.0.0)

Per discussion with bmbouter, removing this as a 3.0 blocker since it's a separate deliverable.
